

C06 Fire Risk Assessment

The Regulatory Reform (Fire Safety) Order 2005

Article 9 "The Responsible person must make a suitable and sufficient assessment of the risks to which relevant persons are exposed".

Overview

Current fire legislation requires that almost all workplaces undertake a suitable and sufficient fire risk assessment. This popular 3 day course is designed to offer practical hands-on experience in this area and allows delegates to gain recognised certification in undertaking fire risk assessments.

Who will benefit?

Delegates will be expected to have some background knowledge of fire safety.

This course is aimed at those who have responsibility for undertaking fire risk assessments and who wish to receive further certification in this subject in order to demonstrate competency.

The course has received approval from the Institution of Fire Engineers (IFE) for the purpose of their Fire Risk Assessors register – see page 24 for more information.

Learning outcomes

You will develop:

- a broad understanding of workplace fire safety issues that reviews and adds to your existing knowledge
- detailed understanding of the fire risk assessment process
- awareness of current fire safety legislation
- ability to apply the principles and methodology of fire risk assessment, exploring the process and applying learning through a number of practical activities

Programme

The course content includes:

- relevant legislative requirements
- means of escape and human behaviour
- passive and active fire safety overview
- principles of risk assessment
- the risk assessment process
- fire risk assessment – practical exercises
- course assessment

Certification

- FPA Certificate showing IFE Approval towards their Fire Risk Assessors Register
- this course has been awarded 18.5 IFE CPD hours
- CFPA Fire Risk Assessor

Progression

- C07 Advanced Fire Risk Assessment
